

Dear FCC, The effects of K-LOVE radio on my community are far reaching. While not only providing 24 hour a day christian music, it provides teachings based on the Holy scripture that are fit for the entire family. There is no need for a time delay to protect children from something inappropriate. This station supports the values that many Americans grew up with and find being attacked by many radio stations today. The loss of K-LOVE being received nation wide would have a negative effect on the moral fiber of our country. Thank you,
